**LOOK UNDER THE POWER TOOL**

Makita Lithium-Ion Batteries are compatible with ALL 18V Lithium-Ion Tools with the STAR SYMBOL™ and / or Yellow Battery Receivers

### Digital Communication

The battery has a built-in CPU that records the usage history and transmits that information to the charger

### Multi-Contact Terminals

Reduce electrical resistance and increase connection stability ensuring a stable current supply to the tool

### Anytime Charge

No Memory Effect  
No Discharging Required

### Shock Absorbing

Heavy Duty Outer Shell

### Longtime Storage

Low Self Discharge

**LXT Batteries Feature an LED**

# 18V LXT DUAL-PORT RAPID CHARGING SYSTEM

**Charges TWO Batteries Simultaneously - DC18RD**

## Automatic Charging Controls

The rapid charger's CPU communicates with the battery's onboard data chip. After analyzing the battery condition, it automatically charges for extended performance and cycle life.

## Forced Air Cooling Fan

Cools the battery by forcing cool air through the battery's built-in air vents to minimize charging time.

## USB Port

Enables convenient charging of mobile devices on the jobsite.

## Charging Display Controls

Shows battery's current condition and charge level indicators.

DC18RD

**Rapid Charging System** Regulates Thermal, Voltage and Current during Charging Cycle to ensure Battery cannot be Over-Charged or Over-Heated during the Charging Process
