filter

**BRUSHLESS**

## Long Lasting Powerful Suction

# Long lasting powerful suction produced by Filtration system with cyclone separation and Powerful brushless DC motor

## Filtration system with cyclone separation

By separating dust from air using centrifugal force, large dust is collected in the dust cup of the cyclone section and fine dust particles are captured at the filter. Thus, the filtration area of the filter can be utilized efficiently, reducing filter clogging.

## HEPA filter with high filtration capacity for clean exhaust air

### Filter cleaning lever

After every use, simply move the lever side to side about ten times to remove dust from the filter.

## Easy dust disposal

The dust cup and the filter are washable in water.

## Powered by 18V Li-ion battery with Battery fuel gauge
