Look Under The Power Tool

Makita Lithium-Ion Batteries are compatible with ALL 18V Lithium-Ion Tools with the STAR SYMBOL™ and / or Yellow Battery Receivers

Digital Communication

The battery has a built-in CPU that records the usage history and transmits that information to the charger

Multi-Contact Terminals

Reduce electrical resistance and increase connection stability ensuring a stable current supply to the tool

Anytime Charge

No Memory Effect
No Discharging Required

Shock Absorbing

Heavy Duty Outer Shell

Longtime Storage

Low Self Discharge

**Makita 5.0, 4.0 & 3.0 Ah
LXT Batteries Feature A LED**

18V LXT DUAL PORT RAPID CHARGING SYSTEM

Charges TWO Batteries Simultaneously - DC18RD

Automatic Charging Controls

The rapid charger's CPU communicates with the battery's onboard data chip. After analyzing the battery condition, it automatically charges for extended performance and cycle life.

Forced Air Cooling Fan

Cools the battery by forcing cool air through the battery's built-in air vents to minimize charging time.

USB Port

Enables convenient charging of mobile devices on the jobsite.

You Tube

Charging Display Controls

Shows battery's current condition and charge level indicators.

Rapid Charging System Regulates Thermal, Voltage and Current during Charging Cycle to ensure Battery cannot be Over-Charged or Over-Heated during the Charging Process
